

FAIZAL MALEK

Full-Stack Developer | Web3 Specialist | DevOps Enthusiast

 Centurion, Gauteng, South Africa  faizalmalek03@icloud.com  076 020 5904 [GitHub](#) [LinkedIn](#) [Portfolio](#)

PROFESSIONAL SUMMARY

Highly motivated Full-Stack Developer with a strong focus on building production-grade applications, exploring Web3/DeFi technologies, and implementing DevOps practices. Experienced in developing enterprise-grade client management systems, real-time analytics dashboards, and scalable web applications. Passionate about creating user-centric solutions and leveraging data visualization to drive insights.

Core Competencies: React Ecosystem | TypeScript | Cloud-Native Architecture | Firebase | DevOps | Web3 | Real-time Analytics

PROFESSIONAL EXPERIENCE

Software Developer

February 2023 – Present

Libex Marketplace | Centurion, South Africa

- Architected and developed the **Libertas Client Portal**, a production-ready client management system featuring dual-interface for admins and clients, real-time analytics, and automated reporting
- Built **DeFi marketplace platforms** and Web3 integration solutions using React, Next.js, and TypeScript
- Implemented custom analytics engines for enterprise client dashboards with real-time data visualization
- Developed full-stack survey platforms with advanced analytics using React, Node.js, MongoDB, and Recharts
- Collaborated with cross-functional teams to deliver scalable solutions using Docker and cloud services
- Maintained WordPress integrations and custom functionality for client-facing platforms

Technologies: React, Next.js, TypeScript, Node.js, Express, MongoDB, Firebase, Docker, WordPress

Salesperson (Part-time)

June 2018 – Present

AFLK Enterprise | South Africa

- Developed strong communication and problem-solving skills in a professional retail environment
- Managed client relationships and provided solutions-oriented customer service

EDUCATION

IIE Rosebank College

2020 – 2023

Bachelor's Degree/Diploma in Software Development

Relevant Coursework: ASP.NET Development, Java Programming, C# Programming, PHP Development, HTML/CSS, JavaScript, Android Studio Development, Data Structures & Algorithms, Database Management

CERTIFICATIONS

Algorithmic Toolbox

University of California San Diego – Issued March 2025

Google IT Support Professional Certificate

Google – Credential ID: U3EN51RQNY96

KEY PROJECTS

Libertas Client Portal | Production

Production-ready enterprise client management system with dual-interface (super-admin and client portals). Real-time analytics dashboard with custom data visualization and automated reporting.

[Live Demo](#) | [Private Repository](#)

Tech Stack: [React](#), [Firebase](#), [Docker](#), [Custom Analytics Engine](#)

Urban Tokenization Survey | Full-Stack Platform

Full-stack survey platform with advanced analytics dashboard and AI-generated insights for urban planning. Data visualization using Recharts with MongoDB backend and Node.js API.

[Live Demo](#) | [GitHub](#)

Tech Stack: [React](#), [TypeScript](#), [Node.js](#), [Express](#), [MongoDB](#), [Recharts](#)

BHS Website | Commercial Project

Modern, responsive commercial website built with HTML, Tailwind CSS, and JavaScript. Implemented custom UI components and interactive features for enhanced user experience.

Tech Stack: [HTML](#), [Tailwind CSS](#), [JavaScript](#)

Login & Signup System

Robust authentication system implementing best practices with secure login and user registration. Session management and user state persistence using Firebase Authentication.

[Live Demo](#) [GitHub](#)

Tech Stack: React, Firebase Authentication, Form Validation

YOUR-TIME-WISER | Hackathon Winner

Hackathon-winning productivity and time management application for Android. Smart task tracking and time management features for efficient workflow.

[GitHub](#)

Tech Stack: Java, Android SDK

Blog-Node | Backend Platform

Full-featured blog application backend with RESTful API architecture. CRUD operations and dynamic content management.

[GitHub](#)

Tech Stack: Node.js, Express, MongoDB

TECHNICAL SKILLS

Programming Languages

TypeScript • JavaScript (ES6+) • Java • Python • PHP • C#

Backend Development

Node.js • Express • Firebase • MongoDB • MySQL • REST APIs
• ASP.NET

Specializations

Web3/DeFi Platforms • Real-time Analytics • Data Visualization •
Enterprise Applications

Frontend Development

React • Next.js • Tailwind CSS • Framer Motion • HTML5 • CSS3
• SCSS • Responsive Design

DevOps & Tools

Docker • Kubernetes • Git • Vite • Google Cloud Platform • AWS
(Exploring) • CI/CD

CMS & Other Tools

WordPress Development • Recharts • Firebase Realtime
Database

SOFT SKILLS

Communication • Problem-Solving • Collaboration • Teamwork • Time Management • Adaptability • Critical Thinking •
Attention to Detail

ADDITIONAL INFORMATION

- **Languages:** English (Fluent)

- **Availability:** Open to full-time opportunities and interesting projects
- **Interests:** Web3 Technologies, Cloud-Native Development, Open Source Contributions, Algorithmic Problem-Solving
